

General Curriculum Math Subtest: Test Preparation Course

This online course will prepare preservice, lateral entry, and teachers new to NC for the General Curriculum Mathematics Subtest. Terms, strategies, videos, and practice test questions are provided in each of the tested areas: numbers and operations, functions and algebra, geometry and measurement, statistics and probability, and open response.

Key Information:

- The training takes approximately 20 hours to complete
- No cost to your district
- Applicants pay \$75.00
- Applicants can receive a certificate upon completion of the course (after taking the Pearson Math Subtest).
- Easy access: applicants go to www.wresa.org and click on the General Curriculum Math Subtest link under WRESA Online PD.

**For more information, contact Karen Sumner, (ksumner@wresa.org).
